Board Member Marcy Larson introduced the following Resolution entitled “**RESOLUTION FOR APPLICATION FOR I-JOBS FUNDING.**”, and moved that the same be adopted. Board Member Jim Lohman seconded the motion to adopt. The roll was called and the vote was:

AYES: Larson, Lohman, Heiden, Miller, Holdsworth, Preul, Tibben, Lee, Wright

NAYS: _____

Whereupon the Chairperson declared the following Resolution duly adopted:

RESOLUTION FOR APPLICATION FOR I-JOBS FUNDING

WHEREAS, The Crawford County Memorial Hospital ("Hospital") currently has \$30.6 million replacement hospital in Crawford County already scheduled for the improvement of health care and the lives the citizens in and around Crawford County, Iowa; and

WHEREAS, the Hospital Foundation of the Crawford County ("Foundation") to provides financial support to ensure the Hospital is able to meet its stated mission of providing high quality health care to the citizens in and around Crawford County, Iowa; and

WHEREAS, The State of Iowa has created a \$750 million plan to create jobs and invest in infrastructure throughout Iowa called I-Jobs; and

WHEREAS, it is appropriate and necessary for the Foundation to apply for \$14 million dollars in I-Jobs funding for the replacement hospital project.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE HOSPITAL FOUNDATION OF CRAWFORD COUNTY:

Now therefore, be it resolved that we, the undersigned, as authorized representatives of the Hospital Foundation of Crawford County, that an application be made to the I-JOBS Local Infrastructure Program requesting \$14,000,000 in funds to support the construction of a \$30,600,000 replacement hospital in Crawford County.

PASSED AND APPROVED, this the 22nd day of July, 2009

Jean Heiden, President

ATTEST:

Jim Lohman, Vice President

CHAMBER AND DEVELOPMENT COUNCIL
OF CRAWFORD COUNTY

Dear Mr. Jones:

I am writing today on behalf of the Chamber and Development Council of Crawford County in support of the Crawford County Memorial Hospital Foundation grant application to the I-JOBS Local Infrastructure Program.

The construction of a replacement facility for Crawford County Memorial Hospital, along with the creation of the newly zoned 17-lot health care district, is a project that will have significant short term and long term positive economic impacts on our community.

The short-term impact will include much-needed construction jobs for those associated with building the hospital. It will also provide an immediate boost to Denison businesses that will feed and lodge these workers for up to two years.

Long-term, this project will deeply strengthen our overall economic development goals. First and foremost, our community will have a new health care facility that will allow us a competitive edge when a potential business opportunity arises. Second, Crawford County Memorial Hospital anticipates the addition of up to 22 permanent skilled labor employment opportunities. Finally, the opportunity will exist for new business development in the health care district.

In our opinion, this project will help move Crawford County's economic development goals in the right direction.

Sincerely,

A handwritten signature in black ink, reading 'Donald R. Luensmann'.

Dear Mr. Jones:

I am writing this letter on behalf of the Cultural Diversity Committee in Denison, Iowa, in support of the Hospital Foundation of Crawford County's grant application to the I-JOBS Local Infrastructure Program.

The Cultural Diversity Committee has been in existence for more than 20 years. Our committee was originally formed in response to an identified need to help assimilate a large immigrant Laotian population to the Denison area in the 1980's. Since that time, the Denison area has seen a dramatic increase in the Hispanic population. Therefore, our committee work has shifted its focus to facilitate more education and awareness toward this minority group in particular.

According to the most recent U.S. Census data from the year 2000, Denison has a Hispanic population of around 20%. However, anecdotal evidence suggests the minority population is much, much higher than that. Because Denison's economy is built around the meat-packing industry, we anticipate the Cultural Diversity Committee to evolve to meet the needs of new immigrant populations and migrant workers that move to our community.

Crawford County Memorial Hospital's new replacement facility will allow more clinic space and better privacy to meet the needs of these special populations. The hospital administration understands that different cultures have unique rituals (such as bringing an entire family along to a physician's appointment) that will be respected and accommodated with the design of the new facility. Additionally, by incorporating bi-lingual signage into the site plans, the hospital is showing another example of how it is taking the large Hispanic population needs' into consideration.

We are excited by the possibility of this grant application and fully support this proposal. We also look forward to having more on-going cultural diversity discussions with hospital administration in the future.

Sincerely,

A handwritten signature in cursive script that reads "Patty Ritchie".

Dear Mr. Jones:

I am writing a letter of support of the Hospital Foundation of Crawford County's grant application to the I-JOBS program. The I-JOBS program can be of tremendous value to local communities, and Crawford County Hospital is in the process of a building project for a new hospital. They need additional support to make this project possible.

I was not in the Legislature when the I-JOBS program was passed but feel this is an excellent program to stimulate our economy. I served ten years in the Iowa Legislature and was always involved in economic development projects and other events to grow our economy. This is a real opportunity.

The current Crawford County Hospital is an old facility that is in dire need of replacement. The facility is landlocked and the improvements that are needed would cost about the same as building a new facility. The hospital administrator and board have done an outstanding job of researching this project and have come to the conclusion that a new facility is necessary to serve the future health care delivery needs of our area. They have checked with other critical access hospital facilities that have built new facilities and are knowledgeable about the procedure and benefits of a new facility.

Crawford County has done a good job of sustaining the businesses that are in the community and have experienced growth in jobs. All indications are that Crawford County has the potential to continue to grow. However, to satisfy this growth potential, they need a state-of-the-art medical facility to take care of health-care needs of the people who work in the County. Crawford County has an aging population which will require more medical attention, to further show the need of this type facility.

I truly feel that due diligence has taken place in connection with this project for Crawford County. I truly believe they have a vision for the future and this new facility will have a positive impact on our local economy and the delivery of health-care needs for the area. I urge the whole-hearted support for this application.

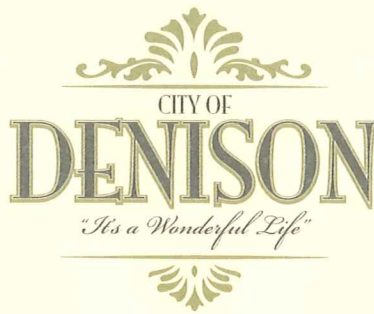

Yours truly,

Clarence C. Hoffman

August 3, 2009

Dear Mr. Jones,

I am writing this letter on behalf of the City of Denison in support of the Hospital Foundation of Crawford County's grant application to the I-JOBS Local Infrastructure Program.

The City of Denison and the hospital have already successfully collaborated on a small portion of this exciting new project. Earlier this year, the city was notified by the Iowa Transportation Commission that we received \$443,532 from the state's RISE grant program for use in the construction of a new 1,720 foot roadway from U.S. Highway 59 into the 40-acre health care district. This newly-zoned development district will house a new and expanded Crawford County Memorial Hospital as well as 17 health care business lots forming the heart of our future health care service park.

Like most rural towns in Iowa, Denison is faced with many challenges, such as recruiting and retaining young, educated workers and their families, and finding ways to encourage local business models that provide skilled workforce opportunities. The construction of this beautiful, state-of-the-art hospital will help our community gain a competitive advantage in these areas and much more. The additional skilled positions that are proposed to be offered at the new facility are exactly the types of job offerings that will help attract young, well educated families back to the Denison community.

This grant application not only addresses our need for high quality health care, but also lays out an exciting vision for the future of Denison from an economic development perspective. For these reasons, the City of Denison fully and enthusiastically supports this grant application.

Sincerely,

Kevin C. Flanagan
City Manager
Denison, IA
